Career Objective

Motivated graduate with strong knowledge in software development, databases, and data analytics. Skilled in problem-solving and coding with hands-on project experience. Seeking to leverage my technical skills to contribute to challenging and innovative projects. To secure a responsible position in the IT sector, contribute to organizational goals, and continuously upgrade my skills in modern technologies.

Skills

Languages: Java, Python, Advanced Excel, Kotlin

Databases: SQL, MySQL

Version Control Tools: Git, Github

Education

Hari Bhai V Desai College, Savitribai Phule Pune University

Bachelor of Computer Applications (BCA), CGPA: 8.28

Jul 2024 | Pune, Maharashtra

Experience

Edu Skill Academy (Virtual Mode)

Google Android Developer Intern

May 2025 - Jul 2025 | Pune, Maharashtra

- Android Basics with Jet pack Compose introduces how to create Android applications with up-to-date tools.
- Jetpack Compose is a library for building UI with fewer lines of code and greater flexibility.
- I learn to create layouts, buttons, text, and images with Compose components.

Projects

1) Airline Management System

- Implemented the online facility of flight booking and management of reservations.
- Designed user-friendly interfaces for flight search and ticketing.
- Performed the management of back-end database activities such as flight details, passenger information, and bookings.

2) Expense Tracker

- Built an Android-based Expense Tracker application using Kotlin
- Allowed users to add, view, update, and delete daily expenses
- Categorized expenses to help users analyze spending patterns
- Stored expense data securely using SQLite database

Certifications

- Programming with Python Professional Certificate | 2024
- Java Certification Course | 2025
- NPTEL- Cloud Computing | 2025

Extra Curricular

- I secured second rank in the Java Blind Coding competition held at my university.
